Stockers Syndrome

“One Market, Infinite possibilities”

Abstract:

Welcome to all the wolves of wall-street! Buy and sell shares on a platform exclusively built for akin to live stock exchange scenario.

Participants will initially be given a specific amount of money using which they are required to buy and sell shares and improve their monetary worth. At the end, all the shares would be sold and final amount will be calculated. The participant with the maximum net assets stands to be the winner.

Problem Statement:

Keep a track of the current market happenings, predict the aftermath of an event, buy, sell, earn and WIN.

Rules:

- At the beginning of the game, every participant will be given the same amount of money for trading in stock exchange.
- During the game, each participant is required to sell or buy shares according to the market conditions in order to increase their net worth.
- Throughout the game, our volunteers will be informing you about the various events happening around the world, it is up to you to grasp how these events will eventually affect the market.
- Once you name out the price for your shares, you are not allowed to change it until one transaction gets completed. However you are allowed to change the price for next transaction.
