Medicos-Mania

"Think Big, Think Fast, And Think Ahead. Ideas are No One Monopoly"

Abstract:

Here comes a brand new form of angst-driven rivalry for the biomedical masterminds. The biomedical field has been revolutionized by engineers with a different take on everything like knowledge, innovation, model making and its marketing and selling. With the rounds ranging from merely kinky to the flummoxing, this event is going to play to the ground. If you think you've got the caliber and the ambition to rise to those meteoric heights of ideas then this is the right forum to present your ideas. Who knows, you might discover a new side of you, a side that proves really profitable.

Problem Statement:

- Wake up your presence of mind and find the hidden answers.
- Fetch your innovative skills out in your hands and make a prototype and present it with your selling and marketing skills.

Rules:

- Participants will not be allowed to use mobile phone or laptop.
- For each Team, only one Kit will be provided.
- The decision of event managers cannot be challenged.
- Strict discipline should be maintained during the event.
- Violation of any rule will be followed by instant disqualification.
